PaperCut 17

Outstanding Cost Accounting & Cost Control Solution

PaperCut™

BLI BUYERS LAB
2018 PICK

The analysts at Keypoint Intelligence - Buyers Lab (BLI) have recognized PaperCut 17 as Outstanding Cost Accounting & Cost Control Solution for the 2018 software Picks season thanks to these key strengths and benefits:

- Accurate tracking of all printer and MFP activity allows organizations to see who is printing/copying what, while customizable reports show how much it all costs

- Departmental, user, and client usage-accounting features let organizations bill internally or externally for output as appropriate

- Customizable print rules and end-user pop-up messages that encourage more cost-efficient printing quantifiably reduce an organization's hardcopy output costs

- Secure pull printing features enhance document security by releasing a job only to the authorized user

- Host of other features such as support for mobile printing and basic scan capture/delivery

"Show us a school or business that doesn't have a cost-accounting and cost-control system in place, and we'll show you an organization that is wasting money on hardcopy output," said Jamie Bsales, Director of Software Analysis at Keypoint Intelligence. "And while there's no shortage of feature-rich output management platforms to choose from, finding one that won't break the budget or the back of your IT personnel is more of a challenge. That's where PaperCut MF and PaperCut NG shine. These solutions deliver all the functionality most organizations are likely to need in order to track, recoup, and reduce hardcopy expenditures in affordable packages that are easy to deploy and administer."

In addition to the core accounting, cost-recovery, and cost-reduction features, the MF edition delivers essential pull-printing functionality, mobile-print support, and scan capture and routing. To enable those and allow for tracking of walk-up activity at the MFP, PaperCut offers an embedded application that can run on devices from almost every printer manufacturer; indeed, it offers among the widest device support BLI has seen in an output management platform. So for organizations that need essential output management functionality in an easy-to-deploy, easy-to-use package that's also easy on the budget, PaperCut is hard to beat.

About **Keypoint Intelligence - Buyers Lab**

Keypoint Intelligence is a one-stop shop for the digital imaging industry. With our unparalleled tools and unmatched depth of knowledge, we cut through the noise of data to offer clients the unbiased insights and responsive tools they need in those mission-critical moments that define their products and empower their sales.

For over 50 years, Buyers Lab has been the global document imaging industry's resource for unbiased and reliable information, test data, and competitive selling tools. What started out as a consumer-based publication about office equipment has become an all-encompassing industry resource. Buyers Lab evolves in tandem with the ever-changing landscape of document imaging solutions, constantly updating our methods, expanding our offerings, and tracking cutting-edge developments.

About **Buyers Lab Software Pick Awards**

Buyers Lab Document Imaging Software Picks stand alone in the industry and are hard-earned awards as they are based on rigorous testing, including evaluation of key attributes such as features, usability, and value. Each product that passes our lab test earns Buyers Lab's Platinum, Gold, Silver or Bronze rating, with the best performers qualifying as Pick contenders.
